WORKPLACE HUB

workplacehub
IT on your terms

I.T. YOU CAN **RELY ON**

Hub is a game changer for how you manage your IT and your business.

World-leading security

Stopping malicious attacks and threats.

Protect your network and users from the rise in malicious IT attacks. The Sophos XG Firewall provides comprehensive next-generation protection that automatically blocks and responds to threats, exposes hidden risks and monitors what's happening on your network. And as part of the Workplace Hub service we will constantly monitor and update the security status.

Hub also integrates into existing physical systems you have, meaning you not only get world-leading cyber security, but a robust and resilient security solution that protects your business. It means you can work knowing that your business won't be compromised.

Accurate business planning

Fixing your IT spend to an amount you can budget for.

Hub is the complete solution from one vendor for all your IT needs. With one contract and a fixed monthly price we make it easier for you to keep track of your total costs and reduce your overall spend. Say goodbye to unwanted additional costs if something does go wrong.

One-stop support

Offering simplicity and reliability.

With Hub, you only have one company to deal with and one number to call for all your IT support. From installation to ongoing servicing we will manage everything for you, ensuring your IT is working effectively and securely all the time.

Better collaboration

Enabling efficient working.

Hub includes Workplace Go, next generation software that pulls together all your key information into one place, improving the way you work and collaborate.

It's a customisable digital workplace that allows you to organise your projects, groups and communities the way you want. Prioritise tasks, find and share documents, track performance, and a whole lot more. All the key information you need is at your fingertips. It boosts communication and enables efficient working. And with the ability to add new intelligent features over time, Workplace Go has the capability to predict and transform the way you work.

A scalable and effective solution

Preparing your business for the future.

Hub creates the infrastructure needed to get your IT working effectively. It's future proofed with technology that allows you to run your current operating systems and applications without having to purchase additional servers. All your normal software will continue to work. Best of all, you can easily add new technologies and applications as they become available, ensuring you're always ahead of the game.

Contributes to a GDPR compliant environment

Simplifying the audit process.

As Hub unifies all your systems and data through one device, it contributes to a GDPR compliant environment that helps you reduce time and cost of auditing multiple systems.

HOW IT WORKS

Workplace Hub is the first solution to unify your IT and create an **all-in-one IT ecosystem** that makes working easier and more productive.

Productivity

You manage your IT and work effectively through web based interface.

Ecosystem

We provide the components that make it work.

ADMIN DASHBOARD

True, functional simplicity – the interface that puts you in control.

USER DASHBOARD

All your core business and communication applications accessed from any location.

IT INFRASTRUCTURE

The next generation server that fits into your existing setup.

MANAGED IT SERVICES

A whole range of IT tasks managed for you, from setup and installation to ongoing management and help, freeing up your time and resources.

Office 365 integration

Monitoring software to provide an end-to-end view of the health of Edge

Cloud management platform

Unrivalled security software for unified threat management

Back-up cloud storage

Ubuntu base operating system

Elasticsearch cloud back-end remote management and monitoring

Latest server technology

KONICA MINOLTA

Data centres, manufacturing, software and integration services, ongoing service support

ONE COMPLETE ECOSYSTEM

State-of-the-art hardware, software and services.

* Accessed via a web based interface. Browser compatibility: Chrome, Firefox, Microsoft Edge.

ADMIN DASHBOARD*

True, functional simplicity. The Admin Dashboard puts everything in one place, with you in control.

You now get a complete overview of all your company's IT – users, assets, applications, server, storage, Wi-Fi, multifunction printer and so on. Tasks become easy, whether reviewing resource usage, revising service contracts, managing user rights or infrastructure status, changing site support or adding and removing applications.

ASSET MANAGEMENT

A simple way to review and manage all your hardware and software licences.

- One simple overview of who is using what within your company
- Assign hardware and software to individuals
- Re-assign assets which are automatically freed up if a colleague changes role or leaves

WI-FI MANAGEMENT

Control your company's Wi-Fi wherever you are.

- Set different Wi-Fi access rights, including limited access for guests

STORAGE & BACK-UP OVERVIEW

Review your storage, at the click of a button.

- Save your data locally or in the cloud. All data is backed up at Konica Minolta data centres

USER MANAGEMENT

A highly efficient way to manage users.

- Easily add, remove or group different users
- Define custom roles and application permissions for individuals
- Set specific authentication levels (e.g. passwords and ID cards)
- Make it simple to use external applications with a single sign-on. All the functionality you'd expect is there, such as forgotten password, password encryption and blocking of accounts after a number of failed attempts
- Compatible with Microsoft's Active Directory and Azure Active Directory

KONICA MINOLTA MARKETPLACE

Get ahead with access to a whole world of online software, applications and IT services through our proprietary store – Konica Minolta Marketplace.

- Business productivity applications developed by approved third-party software developers that seamlessly integrate with your IT ecosystem
- Print and scan related apps
- Professional IT services, e.g. for workflow or document management based solutions

APPLICATION MANAGEMENT

Easily manage and assign business applications.

- Quick overview of all your new applications purchased through Konica Minolta Marketplace
- Assign applications to relevant users

USER DASHBOARD*

The portal to better productivity and collaboration.

The User Dashboard brings together your essential business productivity tools with smart applications, making work quicker and more efficient.

Applications can easily be added over time via the Konica Minolta MarketPlace or by linking to third-party providers, ensuring you always benefit from new intelligent solutions as they become available.

WORKPLACE GO †

A simple way to access all your key information from one place to improve productivity, collaboration and communication.

- Customise the interface to your company and culture
- Access all your individual information for your day through 'My Board'
- Track tasks, set deadlines or find and share key project information across project spaces, team groups or specific communities through 'My Team'
- Find essential company information and documents in a sophisticated 'My Company' space
- Cloud-based tools that ensure mobile access, security and access to data anywhere

FILE SHARING

Share ideas immediately and securely, with colleagues and collaborators.

- Easy to use web interface for files stored on-premise
- Data is encrypted automatically
- Secure back-up to Konica Minolta's cloud
- Move and store multiple files at once
- Notifications help make it easy to follow communication, and a safe way to migrate or remove data

MULTIFUNCTION PRINTING

Multifunction printing capabilities working harder for you.

- High resolution printing, scanning, copying or faxing
- Scanned documents and incoming faxes are digitally converted to ensure anywhere access
- Existing print management applications (cost management, secure print, scan workflows) are seamlessly integrated

* Accessed via a web based interface. Browser compatibility: Chrome, Firefox, Microsoft Edge.

† Works with Office 365 and can only access features with an Office 365 license. Intelligent features will be added over 2019. Please contact your local sales representative for the latest availability.

IT INFRASTRUCTURE

Everything brought together seamlessly, using technology that evolves with your business.

Hub includes a multifunction printer, data storage, Hewlett Packard Enterprise server and Wi-Fi access points. It's equipped with an uninterruptable power supply and is designed to evolve continually as system updates and new features become available.

SECURITY

Unrivalled system security with Sophos XG Firewall.

- Blocks unknown threats
- Automatically responds to incidents
- Secure wireless network
- Sophos Central remote management tool

MULTIFUNCTION PRINTER

An all-in-one smart Konica Minolta printer, giving you fast, high-quality and versatile printing, as well as a copying, scanning and faxing capability.

STORAGE

A data storage solution that grows with your business and never interrupts your service.

CLOUD

Your local server is backed up by Konica Minolta data centres that comply with country regulations providing additional security for your data.

SERVER

Customised Hewlett Packard Enterprise server.

- Reduced air friction and noise
- Integrated battery backup
- Intel® Xeon® scalable processor
- iLO5 Asic with Silicon Root of Trust technology for the industry's best server management and added firmware security

WI-FI ACCESS POINT

Trouble-free, secure Wi-Fi that's easy to configure and highly flexible. We make sure your Wi-Fi access points meet your demands and both your employees and guests enjoy connectivity throughout your premises.

MANAGED IT SERVICES

Free up your time and energy, by letting us take care of your IT management.

We're here to look after complex, critical or time-consuming tasks, empowering you to focus on your business. We can manage a whole range of functions such as storage, security, installation and migration. The helpdesk ensures we're always available for support.

PLATFORM HOSTING VMS

Hosting your business applications on Workplace Hub can centralise and minimise your legacy IT footprint.

- Applications are always securely protected, backed up, and proactively monitored.
- Seamlessly collaborate with existing print/document related software

HELPDESK

A range of help is available, from administration of your Hub through to full support, for your entire IT system.

SYSTEM SECURITY & DATA PROTECTION

We're fully equipped to manage the complex task of protecting your data and systems from malicious attacks. We use Sophos' unified threat management, which offers sophisticated security to keep you safe at all times.

- All data entered by Hub is protected
- Quick and easy security level changes through talking to us

STORAGE & BACK-UP MANAGEMENT

Robust data management and storage so you never lose critical information.

- Save your data locally or in the cloud. All local data is backed up at Konica Minolta data centres that comply with local country data storage regulations
- All data can be encrypted for added security

ONSITE INSTALLATION & SUPPORT

We'll look after the initial setup, configuration and training so Hub works perfectly from the outset.

- Network, Wi-Fi, multifunction printer setup
- Basic migration and integration of existing data
- Physical security against theft
- Training on system usage

ONGOING PROACTIVE MANAGEMENT

Once Hub is installed, we remotely monitor and manage the entire system for you, finding and fixing problems before they impact your business.

PROFESSIONAL IT SERVICES

We can also provide further support for your specific IT projects, including consulting and installation of additional equipment, software and services.
